

## Required Plug-ins

1. There is required software for Blackboard in order for instructors' added content to work properly. Our instructors will be heavily using PDF documents that need Adobe Reader, and videos that require Windows Media Player. There is also two other software that need to stay up to date, and they are JAVA and Adobe Flashplayer.
2. Some instructors will require Microsoft Office software, particularly Word and PowerPoint, so be aware of those special needs.
3. From the **Getting Started** Page, click on **Required Software**.

4. Click on **Blackboard Required Software and Plugins**. Note: Course Specific software should be in the link below.

5. Then click each of the following links to update your software:

### Blackboard required plug-ins

- **Adobe Reader** -- <http://www.adobe.com/products/reader.html>
- **Flashplayer** -- <http://get.adobe.com/flashplayer/>
- **Java** -- <http://www.java.com/en/download/manual.jsp>
- **Windows Media Player** -- <http://www.microsoft.com/windows/windowsmedia/default.mspx>
- **Mozilla/Firefox** -- <http://www.mozilla.com>
- **PDF Browser Plugin** -- <http://www.schubert-it.com/pluginpdf>
