

How To Edit Video Links to Open in One Click

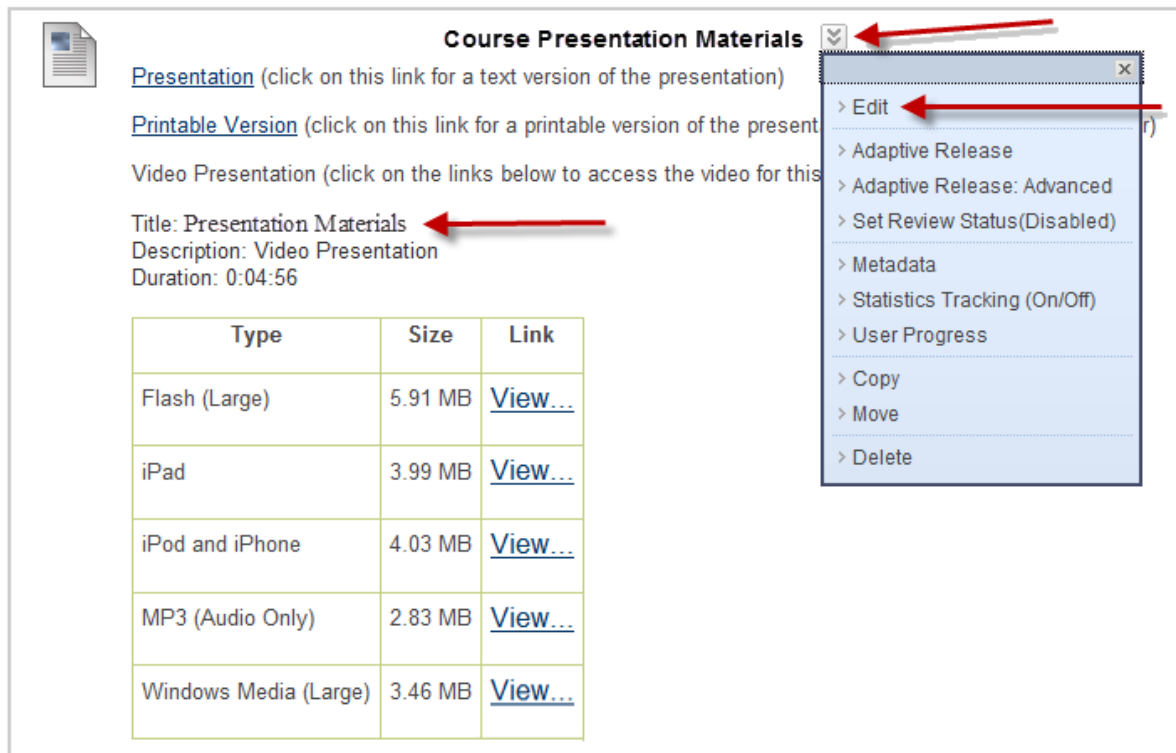

This documentation will cover How to Edit Video Links in your Blackboard Course. This is necessary due to security controls in Blackboard that may require extra clicks to access content not contained within the Blackboard courses. This tutorial demonstrates how to make Camtasia Relay links open in one click.

1. Once you have logged into your Blackboard, Click on your Course that you want to edit. For example, if you teach a ENG092 Course, you would click on ENG092.
2. Click on **Content** in the **Course Menu**.
3. On the **Content** page, Click on the Title of the Course you want to edit. For example, in the diagram below, **Course Presentation Materials** link is the Title of the Course.

How To Edit Video Links to Open in One Click

- Click on the down arrow next to **Course Presentation Material** link, and you should see a drop down menu appear.
- Once the drop down menu appears, Click on **Edit**.

The screenshot shows a user interface for "Course Presentation Materials". On the left, there is a document icon and several links: "Presentation (click on this link for a text version of the presentation)", "Printable Version (click on this link for a printable version of the present...", and "Video Presentation (click on the links below to access the video for this...". Below these links, the metadata is displayed: "Title: Presentation Materials", "Description: Video Presentation", and "Duration: 0:04:56". A table follows with columns for "Type", "Size", and "Link". The table contains six rows of data for different media types, each with a "View..." link. On the right side, a dropdown menu is open, showing options: "> Edit", "> Adaptive Release", "> Adaptive Release: Advanced", "> Set Review Status(Disabled)", "> Metadata", "> Statistics Tracking (On/Off)", "> User Progress", "> Copy", "> Move", and "> Delete". Red arrows point to the dropdown arrow, the "Edit" option, and the "Title" text.

Type	Size	Link
Flash (Large)	5.91 MB	View...
iPad	3.99 MB	View...
iPod and iPhone	4.03 MB	View...
MP3 (Audio Only)	2.83 MB	View...
Windows Media (Large)	3.46 MB	View...

How To Edit Video Links to Open in One Click

6. Scroll down in the Content Information till you get to the video Title. For example, the video Title in the diagram above is **Presentation Materials**. Once you see the Title for the video, you should see the video links for Flash (Large), iPad, iPod and iPhone, MP3 (Audio Only), and Windows Media (Large).
7. **Highlight** the whole link that you want to edit. For example, the diagram below shows **Windows Media (Large)** has the [View...](#) link highlighted.
8. Once the link is highlighted, click on the **Insert/Edit Link** .

Edit Item

A content item is any type of file, text, image, or link that appears to users in a Content Area, Learning

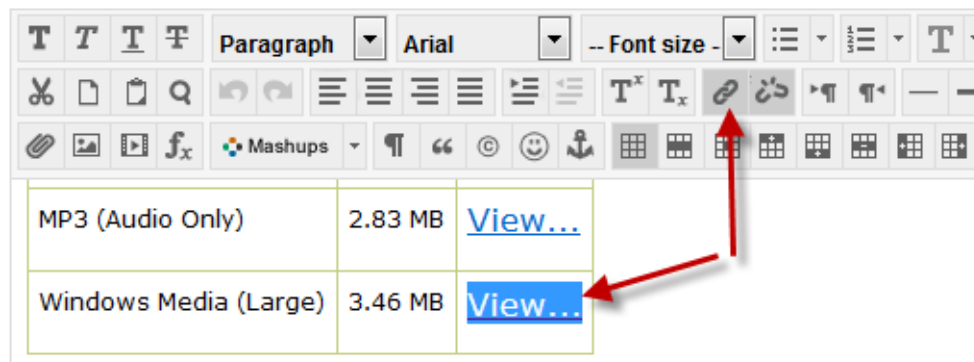

* Indicates a required field.

1. Content Information

* Name

Color of Name Black

Text

The screenshot shows a rich text editor toolbar with various icons for text formatting and linking. Below the toolbar is a table with two rows of video information. The first row is for 'MP3 (Audio Only)' with a size of 2.83 MB and a 'View...' link. The second row is for 'Windows Media (Large)' with a size of 3.46 MB and a 'View...' link. The 'View...' link in the second row is highlighted in blue. A red arrow points from this link to the 'Insert/Edit Link' icon in the toolbar.

MP3 (Audio Only)	2.83 MB	View...
Windows Media (Large)	3.46 MB	View...

How To Edit Video Links to Open in One Click

9. Click the down arrow next to **Target**.

10. Click on **Open in New Window (_blank)**.

The screenshot shows a 'General' tab in a link editor. The 'Link Path' field contains 'http://video.wallace.edu/videos/depts/cr_cie/2013-0'. Below it are 'Browse My Computer' and 'Browse Course' buttons. A note reads: 'When attaching a file from your computer, you must first submit the content item so the file is assigned a permanent URL.' The 'Target' dropdown menu is open, showing options: '_relaynotifier', 'Open in This Window/Frame', 'Open in New Window (_blank)', 'Open in Parent Window/Frame (_parent)', and 'Open in Top Frame (Replaces All Frames) (_top)'. The 'Open in New Window (_blank)' option is highlighted. Red arrows point to the dropdown arrow, the selected option, and the 'Update' button at the bottom right.

11. Click on **Update**.

12. Continue repeating steps 7 through 11 till you have completed all the links that you want to edit, including the following video links:

- a. Flash (Large)
- b. iPad
- c. iPod and iphone
- d. MP3 (Audio Only)
- e. Windows Media (Large)

13. When you have finished editing the links, click on **Summit**.
