

## How to Fix a Student Attempt In Progress

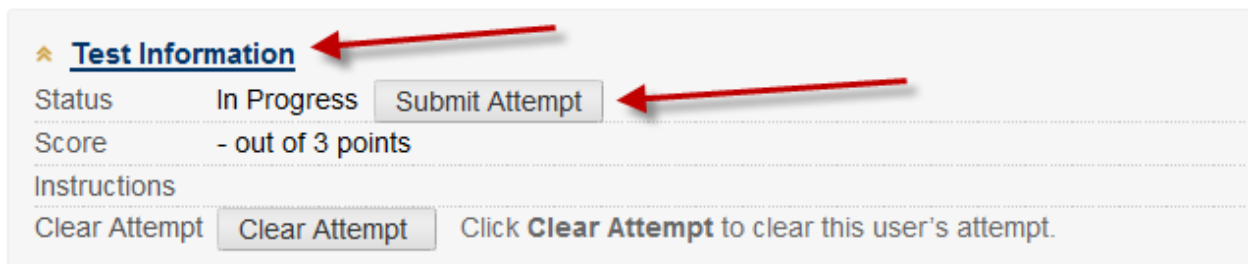

1. You may find that a student has not fully submitted a **Test** in **Blackboard**. This will be seen as an icon that reveals "**Attempt in Progress**" when you hover your mouse cursor over it.

2. From the drop down option menu select the attempt.

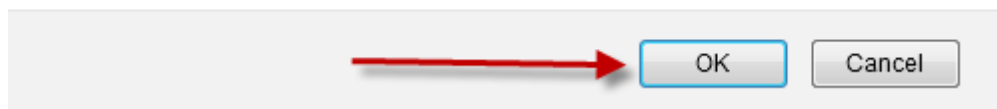

3. Expand the **Test Information** link. Click **Submit Attempt**.

4. Click **OK** to submit the attempt.

Submit this attempt on behalf of the student? This action is final and cannot be undone.

5. Check **Grade Center** to ensure that the student has a grade for that column.
