

## Changing the Language to English in Blackboard

- If you have inadvertently changed the language in Blackboard to Spanish, you can change it back at the login screen.
- Go to [courses.wallace.edu](https://courses.wallace.edu).
- At the top of the screen, you will see an option for "**Idiomas disponibles:**"
  - Choose "**English (United States)**".

The screenshot shows the Blackboard login interface. At the top left is the Blackboard logo. To the right, there is a link for "Cambiar el tamaño de texto". Below the logo, the text "Idiomas disponibles:" is followed by a dropdown menu with two options: "English (United States)" and "Español (España)". A red arrow points to the "English (United States)" option. Below this, there are two main sections: "¿Dispone de una cuenta?" (Do you have an account?) and "¿No dispone de una cuenta?" (Do not have an account?). The "¿Dispone de una cuenta?" section includes a login form with fields for "Nombre de usuario:" and "Contraseña:", a link for "¿Ha olvidado su contraseña?", and an "Iniciar sesión" button. The "¿No dispone de una cuenta?" section includes a link for "Ver catálogo de cursos" and a link for "Vista preliminar como invitado".
