

## How Students Can View Test After Taking

---

1. Students can review their tests even after the test availability has expired (if the instructor has allowed this under Test Options).
2. Student will need to go to their My Grades link on the course menu (left side of screen within the course).
3. Students will see a grade for the specific exam. The grade they made should be in blue. Click on the score and they will go to another page for that test.
